*Join The High Pressure Generation
Sunsport 2021*

The High Pressure Sunsport 2021 tans with the newest technology in the tanning industry. This bed uses **1000-Watt quartz lamps** with almost exclusively UVA rays, also known as "the browning ray. This bed has **MUG6 Blue Glass**, a total of 21 quartz lamps for a output of over **30,000 Watts** and a **UVB rate of less than 1%** which allows you to tan the full time every time with out the chance of burning. Build your **tan in as little as 2-4 visits** or give your existing tan a boost in 1-2 visits Can you believe that you can maintain your golden glow with only 2-3 sessions/month? Ask us how to save time and money tanning in a **High Pressure Sunsport 2021** bed.
